

June 2021

Dear Parents

We are delighted to formally welcome you and your child to Regents Park Community College. Despite the fact that schooling for us all has been very different this year, we are doing all we can to get ready for our next generation of Regents Park students.

It is natural for children – and their parents – to have questions about the move from primary to secondary school. This year transition will be quite different, but we are working remotely with your primary teachers to make the process as smooth as possible. There is a dedicated area of the website for transition so please check out the school's website as we will keep this as up to date as possible and in line with local and national developments.

In this initial transition pack, you will find the important paperwork for parents to complete. This can be dropped off at the school reception from Thursday 1st July between 8.00am and 4.00pm. You will then be able to collect the 'Next Generation' information booklet and also the 'Regents Park Ready' summer workbook. All of these are already available on the school website.

To support students' academic transition and make sure they are 'Regents Park Ready', all students are set a summer homework booklet which will prepare them for their first term of learning. There are plenty of rewards for those students who work hard on this homework, including certificates and badges and the most effort will see students invited to their first Hot Chocolate with the Headteacher.

We look forward to meeting children and parents, but in the meanwhile please complete the included documentation and return to the reception at school. For further details about Regents Park and electronic versions of all paperwork and booklets, consult our website. You can also keep in touch with school developments by following us on Twitter and Facebook.

Finally, if you have any other questions or we can help in any way, do not hesitate to contact us.

Yours faithfully

The Regents Park Senior Leadership Team and Spencer
