

November 2020

Dear Parents

Regents Park Community College is committed to providing high quality Teaching & Learning, including during periods of remote on-line learning. We recognise the importance of maintaining high expectations in all areas of school life and ensuring that all students have access to the learning resources and support they need to succeed.

Your child's remote on-line learning will be guided through communication with teaching staff on Google Classroom. We ask that you please support your child in ensuring that they can access Google Classroom and that they have their codes for each of the classes on their timetable.

The learning resources we will provide will include a combination of:

- Live lessons using Google Classroom 'Meet'
- Pre-recorded video lessons on Loom
- PowerPoint slides with pre-recorded teacher video and sound
- GCSE exam papers
- Learning resources on Microsoft Word documents
- Low-stake quizzes
- Tassomai
- MathsWatch

In the event of your child being required to access remote on-line learning we ask that you please support them in following their lessons each day on Google Classroom. When a teacher is sharing a Live lesson through Google Classroom 'Meet' your child will be sent a link on Google Classroom so that they can then access the live lesson at the appropriate time.

- If there are any problems accessing Google Classroom 'Meet' please inform the school so that we can resolve any issues
- If your child requires hard copies of resources and assignments, please contact the school and we will endeavour to arrange this for you.

It is important that we work together to support the success of remote on-line learning so we ask that you please monitor your child's work time each day (they should follow their usual school timetable) and also to help them understand that we all expect the same high standards of behaviour for learning when they are in a live lesson.

Headteacher : Mrs Samantha Barnes

I hope that this explains the provision we have in place for remote on-line learning allowing all students to continue to make progress. Should you have any further questions related to this please do contact the school for further clarification.

We would like to reassure you that whether in a classroom, or working remotely, we will continue to ensure that your child is able to make good progress and enjoy their learning.

Yours faithfully

Natalie Reed
